Vocab Sheet: Lesson 3

generative art - an art that in whole or in part has been created with an autonomous system (like a computer program)!

x coordinate - point on the x axis of a grid (left and right)

y coordinate - point on the y axis of a grid (up and down)

boolean - a data type with only two possible values (often times true or false)

target - the location on the grid which your graphics are headed towards!

speed - how fast your graphic is moving towards that target location!

dot notation - in JavaScript a dot notation provides access to an object's properties.

To Review:
objects contain data, the data is typically in the form of **properties** or **methods.**
